

Bal Bharati Public School

Mont - 11

Dear Parents,

Please accept our heartiest gratitude for your support and understanding in these tough times. We will surely tide over this pandemic and emerge even stronger with our resilience. We will turn this challenge into an opportunity by reaching out to our students by means of interactive sessions, audio visual clips, follow up worksheets, and other fun filled activities.

We are certain that the kids will enjoy and adapt to this new learning technique.

The COVID 19 phase has really made us Teachers and Parent ACTUALLY & CONSTANTLY HOLD HANDS for inculcating the best cognitive & thinking skills and IQ Levels in our children - this notion is so evident in the feedback received from so many of you dear Parents.

STAY SAFE, STAY HEALTHY

PRAYER

We can begin teaching our children about prayer even before they can speak in coherent sentences. When we allow them to see us praying, and by including them in your prayers, we are showing children that praying is something important that adults do. As our children grow and are able to communicate verbally, they will learn to pray on their own over time.

- *Let's pray*

PHYSICAL EXERCISE AND YOGA

Children need to be active every day to promote their healthy growth and development.

Kids who establish healthy lifestyle patterns at a young age will carry them - and their benefits - forward for the rest of their lives.

- *Let's keep ourselves Fit*

Theme For The Month:

All About Me

The goal behind an All About Me concept and Activities help the children learn about each other and each other's families. This concept helps children realize that every person is unique and special.

They also learn that every child's thoughts and ideas are important and no one person is more or less important than another. These activities will help them get to know the special and unique things about themselves and each other. The theme, All About Me, provides children with the opportunity to answer the all-important question "Who Am I?"

- Vocabulary – height, weight, number, Swan, India, Delhi, touch, taste, hear, smell, feel, big me, tall, positive words for boosting the self-concept of the child, big and small (family), etc.

• Let's start

SHAPE:

The ability to accurately identify shapes is a foundational mathematical skill, and it is quite rewarding for children because their world is full of shapes. Understanding shapes will enable students to be more in tune to the world around them and see the connections between objects, as well as being better able to appreciate artistic works.

- **Semicircle**

<https://www.youtube.com/watch?v=9W1mO--gF0k>

Activity Time:

Draw object with the help of Semi circle.

https://www.youtube.com/watch?v=SySQ_OrCrXc

CONCEPT

There are many pre-math concepts that need to be taught. Kids need to understand placement and location of objects and understand the meaning of these words to help them understand directions later in their learning. This concept helps boost kids logical thinking skills.

➤ IN AND OUT

Activity Time :

Activity related to the concept In and Out.

RHYMES

Every language has a rich treasure of rhymes which have been traditionally used to introduce the spoken language and facilitate the early spoken skills of children. Rhymes when recited with action- as small action songs, lead to the construction of meaning and the child learns the language without conscious effort.

Let's Sing:

ART & CRAFT

Art and craft are fun activities for kids. Be it coloring with crayons or making miniature statues from clay, folding paper to create fine origami or designing a handmade birthday card, there are several arts and crafts activities, which can enhance the interest of the children and exploit their artistic potential. It develops fine motor skills, enhances dexterity, improves eye-hand coordination, learns to appreciate art and culture, enhances self-expression.

Let's be creative:
