

Bal Bharati Public School Navi Mumbai

Testimonials

Mrs. Nisha Joseph (Parent)

Our two children are studying in Bal Bharathi Public School, Kharghar, Navi Mumbai. They had joined the school in Nursery and now one of them is in final year of schooling, that is 12th standard and the other is in 8th standard. When we were looking for school admission for our elder child, BBPS, Navi Mumbai was the natural choice as it was nearest to our residence and was one of the prominent schools in Kharghar and fortunately both got the admission.

Our experience with BBPS was so overwhelming. When time came to look for admission for our second child four years later, we were worried if our child could get admission there – and fortunately she got it. Through these years we have seen our children grow on all fronts – be it curriculum, extracurricular activities, personal & social

behavioral attributes, personal traits like leadership, integrity, public speaking, teamwork, organizational skills and compassion and care for others. This is because of the able school management, competent & committed staff and the institutional framework.

The school is very stable with very few changes in the management and the teaching staff. We sent our tiny tots to the school, and we can confidently say that they have developed themselves into able youngsters in the ecosystem provided by the school. We express our sincere gratitude and heartfelt appreciation for taking care of our children and grooming them into good human beings that as parents we are proud of!

Mrs. Savita Saini (Parent)

My children had the good fortune of being schooled from one of the best educational institutions- Bal Bharati Public School, Navi Mumbai. My daughter, Mahima Saini, studied here from Class V to XII while my son, Garv Saini, completed his Class I to XII in this school.

Both children had a wonderful all-round development at Bal Bharati Public School Navi Mumbai. The teachers passionately impart academic knowledge. Regular tests ensured that students could track their progress. Children still fondly remember the various inter-class and inter-house competitions that ranged from sports and public speaking to culinary and craft. Numerous group activities instilled a spirit of belongingness, team work and co-operation in the students. The school gave outstanding exposure in events like Annual Day, Sports Day, Bal Mela, etc. Opportunities to enhance one's skills were provided not only within school premises but also at the inter-school level.

I used to love the school's emphasis on value education and current affairs updates. Children would start their day with morning assembly that involved many positive aspects like prayer, thought for the day, news reading and a lot more. I must say, the Hawan done before board examination would feel very special. BBPS, Navi Mumbai is indeed a second home for its students. And it can be called so only because of the dedication, affection, concern and encouragement that every single member of its team offers.

With the support of a rock-solid foundation built during their childhood, grace of God and best wishes of all, I feel happy to share that Mahima is a Judicial Magistrate, First Class and Civil Judge, Junior Division in the state of Maharashtra, and Garv has been selected to the Indian Air Force. My deepest gratitude to all the teachers. You are indeed the best sculptors to mould a child's future!
