

BAL BHARATI PUBLIC SCHOOL, NAVI MUMBAI

BEST PRACTICES

CLASS 1 (2022-23)

Reading is the most essential academic skill for the young learners. At Bal Bharati Public School, we aim to provide the best facilities to our students to help them achieve their goals.

To improve the reading skills of the students of class 1, we conducted a Reading Program where students were exposed to various tasks like phonemic awareness, print concept and word identification.

Each pre primary teacher was assigned two students to have individual sessions with them. With continuous reading sessions for 3 months from December 2022 to February 2023, we could see positive outcome which was noticed and appreciated by the parents and subject teachers of class 1 while teaching them in the regular classes.

This practice of regular assessment and follow up remedial sessions is an ongoing work which will continue in the next academic session also.
