##### Seven Chakras

There are seven chakras or energy centers in the human body through which our vital energy or prana shakti flows. Sometimes, these energy channels get blocked and this leads to illness and disturbances in the body's natural processes. It is important to understand what each chakra represents and what we can do to keep this energy flowing freely. This is possible when the chakras are balanced.

Q1) Where are the seven chakras located in our body? Illustrate with the help of a figure.

Q2) What are the benefits of these seven chakras?

Q3) What do the seven chakras represent?

( Answer all the above questions on an A-4 size coloured sheets)

##### **Magic of Seven Spices**

Spices play a vital role in Indian cuisine. These are some of the most valuable items of domestic as well as industrial kitchens. The role of spices is to increase the palatability, flavor and color. One can never forget it as an age-old preservative agent. It is very common to use spices for cooking; however, it is also part of many industries like medical, cosmetic, pharmaceutical, perfumery, and many more.

Make a project on Magic of Seven Spices. Decorate the number '7' (image given below) with seven different spices. You need to find out the following details about seven spices:

- Name of the spice
- Where it is found in India
- Region of origin
- Medicinal properties

Instructions: Handmade Project on A 4 size Sheets (2-3)

- a. Cover page with Title, Student Name, Class and section
- b. Collage
- c. Information about spices
