

# Bal Bharati Public School, Navi Mumbai

## Project Name: AI Model Making

**Classes: 6 & 7**

### **Title: Report on AI Model Making in the Classroom**

Date: October 20, 2023

AI (Artificial Intelligence) model making in the classroom is a valuable educational approach that fosters hands-on learning, enhances student understanding of AI concepts, and prepares them for future careers in technology.

AI Model making activity was conducted in the classes 6 and 7 in the zero and first periods. Students participated with full vigour and enthusiasm. They exhibited their perspective of Artificial Intelligence through their 3D Models and showcased their talent and skill.
