

## **Name of the workshop: OVER COMING FEARS & BUILDING BONDS OF TRUST**

A fest to Ignite Scientific Temper in Young Minds “RAINBOW” was organised by Indian Women Scientists Association (IWSA) on 22<sup>nd</sup> & 23<sup>rd</sup> March 2024.

**Attended by** Ms. Jyoti Khattri & Ms. Archana Tagore

**Conducted by** Dr. Amrita Rajpal, the Territory Head of Mumbai Early Childhood Association of India.

### **Important points of the workshop:**

- The speaker explained the topic with examples of her personal experiences.
- She explained it through a game where one person was blind folded & the other person was guiding. Blindfolded Person followed the instructions and reached the destination. In the same way, as a teacher we need to create an environment where a child feel safe and secure and a trust & bond is created.
- Teaching Aids were displayed, innovative ideas were used by young trainees.
- Puppet show was very colourful & lots of Puppets were used for gaining attention of young children. They had recorded the story with song, music & dialogues which was very effective.
