## Towards creative teaching

**B**al Bharati Public School had organized an exhibition of Teaching Learning Material (TLM) created by Montessori teachers for their students on Aug 3. The students and parents visited the exhibition in a large number on PTM day and appreciated the work done by Montessori teachers.

There were charts, flash cards, puppets, educational games, puzzles, sorting and matching activities in the display. The innovative ideas and creative work of teachers attracted everyone. All the students enjoyed solving the puzzles and doing other activities. All these TLMs are very important tools to support teaching learning activities in school. Parents also got an opportunity to witness such an event and learnt a lot about engaging and interesting activities to keep their children away from gadgets.
